```java
public class GenerateOTP {
 public static String generateOTP() {
  int randomPin   =(int)(Math.random()*9000)+1000;
  String otp  =String.valueOf(randomPin);
  return otp;
 }

 public static void main(String[] args) {
  String otpSting  =generateOTP();
  System.out.println("OTP : "+otpSting);
 }
}
```
